

VEMIREDDY SIVAPRASAD REDDY

Aspiring Data Analyst

vemireddysivaprasad567@gmail.com | +91 9391119580 | Hyderabad | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Detail-oriented and motivated Data Analyst with strong knowledge of Python, SQL, Excel, and Power BI. Experienced in data cleaning, exploratory data analysis (EDA), dashboard development, and data visualization. Skilled in transforming raw data into meaningful insights and supporting data-driven decision-making through analytical techniques and reporting.

INTERNSHIP EXPERIENCE

- DataTeach.ai, Data Analyst Virtual Internship** 03/2026 – 08/2026 | Hyderabad
- Cleaned and transformed 10,000+ records using SQL and Python, improving data accuracy and reducing data errors by 20%.
 - Performed exploratory data analysis (EDA) using Python and Pandas to identify trends, patterns, and actionable business insights.
 - Developed interactive Power BI dashboards tracking 8+ KPIs to visualize performance trends and support data-driven decision-making.
 - Analyzed business requirements and translated them into data-driven reports and dashboards, improving visibility into key performance metrics.

EDUCATION

- B.Tech in Computer Science and Engineering, KMM Institute of Technology and Science (Affiliated to JNTUA)** 2022 – 2026 | Tirupati
CGPA: 8.2/10
- Intermediate (MPC), Sri Vivekananda Junior College** 2020 – 2022 | Vinjamur
Percentage: 78%

TECHNICAL SKILLS

Programming Languages

Python, SQL

Database

MySQL

Data Analysis

NumPy, Pandas, Data Cleaning, EDA, Statistical Analysis, Hypothesis Testing, Data Modeling

Tools

Jupyter Notebook, VS Code, Git, GitHub

Visualization & BI Tools

Matplotlib, Seaborn, Power BI (DAX, Power Query), Advanced Excel (Pivot Tables, VLOOKUP/HLOOKUP/XLOOKUP)

Machine Learning

Supervised & Unsupervised Learning, Regression, Classification, Clustering

CERTIFICATIONS

- Quantum Data Analytics Job Simulation – Forage
- Cloud Computing – NPTEL

PROJECTS

- HR Analytics Dashboard** 07/2026 – 08/2026
Python, Power BI

- Developed an interactive HR Analytics dashboard with 6 KPIs including Total Employees, Active Employees, Attrition Count, Attrition Rate, Average Age, and Average Experience.
- Analyzed employee attrition across 7 departments, salary slabs, job roles, gender, age groups, and experience levels to identify workforce trends and key attrition patterns.
- Visualized workforce distribution and attrition trends using interactive charts and tables, enabling comparison of employee counts and attrition across departments and job categories.

- Student Performance Analysis** 05/2026 – 06/2026
Python, Pandas, Matplotlib

- Analyzed academic performance data for 1000+ students using Python and statistical methods to identify score trends.
- Performed data cleaning and subject-wise performance evaluation, surfacing patterns in underperforming cohorts.
- Improved student performance reporting by automating total, average, grade, rank, and result calculations using Python and Pandas.

- Road Accident Analysis Dashboard** 03/2026 – 04/2026
Python, Power BI, Excel

- Built an interactive Power BI dashboard analyzing accident trends across vehicle types, road conditions, and weather patterns.
- Identified weather-related incidents as a significant share of total fatalities, surfacing key risk factors for stakeholders.
- Improved data accuracy by cleaning, validating, and standardizing road accident data, enabling more reliable analysis and reporting.
- Designed KPI metrics and visual reports used to guide data-driven safety recommendations.

ACHIEVEMENTS

- Independently developed end-to-end data analytics projects covering EDA, Dashboarding, and predictive insights
- Built and deployed interactive Power BI and Tableau dashboards used to communicate business KPIs
- Applied SQL, Python, and statistical methods to solve real-world analytical problems

SOFT SKILLS

- Problem Solving & Analytical Thinking
- Stakeholder Communication
- Team Collaboration
- Time Management
- Adaptability
